

## PRODUCT INFORMATION

December 2013 Update

# 52114

## 240V Automatic Tyre Inflator

The 52114 Alemlube 240V automatic tyre inflator is highly accurate, reliable and wall mountable with a clear LED digital display.

Modern design and robust build qualities set this electronic pressure preset unit apart from lesser featured devices on the market and the auto-start inflation system provides a real operational benefit.

Accurate inflation can be achieved with the supplied 10 metre air hose and tyre chuck and with other hose lengths of up to 25 metres. Additional diagnostics provide essential information to assist efficient workshop practices.

A true high performer for today's fast paced service centres, the 52114 can be used for inflation, deflation and tyre pressure testing functions.

### PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

240V operation

Electronic pressure preset

Auto-start inflation

Clear digital display for fast repeatable accuracy

Supplied standard with 10m of air hose and tyre chuck

Accurate inflation with up to 25m hose lengths

Reading accuracy:  $\pm 1$ psi/0.7bar

Maximum pressure: 145psi/10bar

Maximum inflation pressure: 101psi/7bar

Inflation speed: 400L/min @ 10bar

Dimensions: 135 x 240 x 76mm

Weight: 1.44kg
