JRB1 Spill Container Modular Ramp Block

June 2020

The JRB1 Spill Container Modular Ramp Block is a universal module designed to attach seamlessly to the JR1 Spill Container Modular Ramp enabling access to varying height spill containers available from Alemlube.

Quick, easy and safe to handle and position by one person, the JRB1 Modular Ramp Block features a slip resistant texture ensuring ultimate safety in most working environments.

Combinations of several blocks can form stepping platforms and ramps (when used with the JR1) and the cleverly designed integrated locking system ensures solid formations providing additional workplace safety.

Strong and robust the JRB1 Spill Container Modular Ramp Block is ideal for industrial and general applications in all busy, productive market sectors.
