Alemlube Automotive 4-Cabinet Workstation

November 2019

The Alemlube Automotive AA777400 4-Cabinet Modular Storage Workstation transforms your workshop into a well organised, slick operation with all tools and equipment in their place and conveniently at your fingertips.

Leaving nothing to chance, each modular cabinet seamlessly combines with another in the range to form a complete, comprehensive workstation.

The AA777400 4-Cabinet Workstation is a complete combination of cabinets as shown above and is available for immediate installation by the Alemlube Automotive Workshop Equipment & Fitout team, no waiting for a custom built option.

Equipped with power inputs to charge your scan tools, impact wrenches, work lights, tablets and mobile phones, data connection points have also been conveniently located.

Completely modular and transportable, the Alemlube Automotive 4-Cabinet Workstation easily and efficiently re-located to another workshop bay or a new site.

Above all, the ability you now have for all the bays in your workshop to look the same with all the same facilities is a productivity plus and a consistency of installation that projects a professional, industry leading image.
