## 599F 20V Lithium-ion Cordless Grease Gun - 400g

March 2023

The 599F 20V Lithium-ion Cordless Grease Gun available from Alemlube is an innovative grease gun with built in intelligence & a new and powerful 4.0Ah battery as standard. The only cordless grease gun kit complete with charger and 4.0Ah battery on the market ready to go, the 599F can dispense up to 39 x 400g cartridges per charge.

It's smart too. An LCD shows real time battery capacity, grease level, grease metering information, loss of priming and stall warning with the press of a button to assist the user in always being prepared to have a fully operational grease gun at hand to be active on the job.

Two Lithium-ion batteries are supplied with the 599F, 1 x 4.0Ah and 1 x 2.5Ah, with fast recharging so you'll never be without greasing power to complete your ongoing work.

Lightweight and ergonomic, the 599F is supplied complete with a 900mm long grease gun flex, a heavy duty coupler and has the versatility of three way loading; 400g cartridge, bulk grease or filler pump. And, a skin version (599F-SKIN) without battery can also be purchased to assist in having varying grease grades on hand and ready to swap over or use the additional battery.

Furthermore, a 450g version is also available as the 670AN6 to suit all Australian sized grease cartridges.

Protected in a durable plastic moulded carry case, the 599F 20V Lithium-ion Cordless Grease Gun provides you with an intelligent and trouble-free high pressure, high volume greasing solution.

### SPECIFICATIONS, FEATURES & BENEFITS

- For extra convenience the 4 point stand design allows the gun to be placed down while greasing
- Powerful 4.0Ah battery plus 2.5Ah spare battery standard
- Delivery rates of up to 170g/min
- Grease pressure of up to 10,000psi (690bar)
- Up to 39 x 400g cartridges per battery charge
- Dual flow rates: 113g/min & up to 170g/min
- LCD for real time battery capacity, grease level & metering
- Loss of priming & stall warning indication
- Fast recharger time of 2 hours, LED light with on/off control
- Suitable for use with grease up to NLGI2
- Three way loading: 400g cartridge, bulk grease or filler pump
- Ball & needle bearings
- Curved slot yoke optimises mechanical efficiency
- Case hardened piston for wear & bend resistance
- Impact resistant LCD lens & impact absorbing bezel
- Patented air flow management optimises motor & transmission life
- Shape, weight & balance designed for less physical strain
- Fast effortless greasing guaranteed
