O300110

IBC Kit with Pump, Hose Reel and Electronic Oil Meter

September 2019

The Alemlube EL Series O300110 IBC Kit with Pump, Hose Reel and Electronic Oil Meter is ideal for dispensing oil with a maximum viscosity of SAE240. A real asset for transport and industrial applications, the O300110 kit is the perfect partner for oil purchasing economy, IBC oil storage and oil delivery on demand.

An excellent value for money proposition, the EL Series O300110 gives you the opportunity to conveniently dispense oil in any maintenance environment with a well combined pneumatic solution for all your intermittent or seasonal oil transfer and metering work.

Delivering up to 8L/min the O300110 IBC Kit is suitable for dispensing motor oil, synthetic oil, hydraulic oil, gear oil and automatic transmission fluid.

Smart pump design with fewer working parts effectively means less pump wear & tear and facilitates a lower cost of ownership.

Both the heavy duty dual pedestal hose reel and the electronic oil meter have been manufactured to provide a long and reliable service life.

Manufactured with efficiency in mind, the O300110 IBC Kit with Pump, Hose Reel and Electronic Oil meter is well designed, affordable and is supported by readily available spare parts.

SPECIFICATIONS, FEATURES AND BENEFITS

- Effortless oil transfer
- Smart pump design with fewer moving parts
- Heavy duty dual pedestal hose reel complete with 15m x 1/2" ID S.A.E. 1001R1 wire braid hose
- 5 digit liquid crystal meter display with low battery indicator
- Meter powered by an easily replaceable 3V CR2 battery
- Side mounted oil meter bracket with drip tray
- Kit delivers up to 8L/min
- Maximum operating pressure of 750psi (50bar)
- Maximum oil viscosity of SAE240
- Air consumption of 2.8cfm at 150psi
- 1/4" BSP(f) air inlet connection
- Inlet filter protects against foreign particle contamination
- 2" bung adaptor supplied standard
- Pump noise level of only 82dB
