

G30090

## EL Series Grease Hose Reel

April 2023

**The Alemlube EL Series G30090 Grease Hose Reel is a well-constructed hose reel manufactured for a long service life in professional & automotive applications.**

The EL Series G30090 Grease Hose Reel is protected by corrosion resistant powder coating with two supporting arms and a rust resistant galvanised base.

The reel has been designed with a dual pedestal base for strength and a double supporting 1-3/8" axle with full flow shaft and swivel joint which is structurally reinforced.

Featuring a multi-position locking ratchet, adjustable guide arm and four direction non-sag rollers, the G30090 Grease Hose Reel can be wall, ceiling or floor mounted.
