INFORMATION

508244 Samoa 25m x 19mm ID Heavy Duty Hose Reel

January 2022

The 508244 Samoa 25m x 19mm ID Heavy Duty Hose Reel is a full metal, large capacity, double pedestal hose reel robustly constructed and able to withstand regular demanding use in intensive applications.

Ideally suited to highly productive markets of mining & construction, railroad & mass transit, general manufacturing and applications in lube trucks and transport fleets.

Supplied standard with 25m of 19mm ID hose the 508244 is suitable for use with air, water, synthetic & mineral oils, waste oil, diesel fuel and antifreeze solutions.

Extremely tough construction with the spool mounted on two permanently lubricated and sealed ball bearings effectively reduce the torque load on the spring equating to smooth hose retraction and a longer service life.

A fatigue resistant steel spring delivers years of durable performance resulting in an even load when pulling and recoiling the hose.

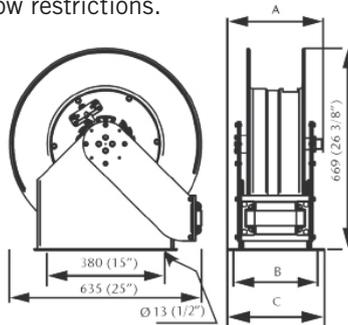

The 508244 Samoa 25m x 19mm ID Heavy Duty Hose Reel operates with ease facilitated by a large effective radial latching area with the full port shaft and swivel presenting no flow restrictions.

SPECIFICATIONS, FEATURES AND BENEFITS

- Working pressure of 1,305psi (90 bar)
- Inclusive of 25m x 19mm ID grease hose
- 0.8m lead in hose
- 3/4" BSP(m) fluid inlet and outlet
- Full metal heavy duty construction
- Double pedestal design for rigidity & strength
- Narrow footprint
- Full port shaft & swivel
- Large effective radial latching area
- Fatigue resistant steel spring
- Adjustable hose guide arm
- Floor or tank mounting
- Weight of 57kg
