670AN6

## 20V Lithium-ion Cordless Grease Gun

March 2023

The evolution continues. The new 670AN6 is the latest in the Alemite series of the premier cordless grease gun on the market that now carries a 5-year warranty on the grease gun and 2-year warranty on the battery and charger.

Key advancements from the 670AN6 include an all new 4 point stand design so you can place the gun down anywhere while greasing, an improved & refined motor, a flexible 120cm hose extension (was 90cm) complete with hose holder, shoulder strap as standard, all housed in an upgraded extreme duty industrial carry case. An optional (400gm) clear barrel is also available as an accessory for visibly monitoring expensive European and US greases.

The only 450g cordless grease gun kit complete with charger and 4.0Ah battery as standard on the market ready to go, the 670AN6 can dispense up to 35 x 450g cartridges per charge.

It's smart too. An LCD shows real time battery capacity, grease level, grease metering information, loss of priming and stall warning with the press of a button to assist the user in always being prepared to have a fully operational grease gun at hand to be active on the job.

The 670AN6 is capable of developing a maximum operating pressure of 10,000psi (690 bar) facilitating fast, effortless greasing guaranteed and offers dual flow rates: high at 170 g/min, low at 113 g/min. Two Lithium-ion batteries are supplied with the 670AN6, 1 x 4.0Ah and 1 x 2.5Ah, with fast recharging so you'll never be without greasing power to complete your ongoing work.

Lightweight and ergonomic, the 670AN6 is supplied complete with a heavy duty coupler (14511 quick connect coupler also available as an accessory) and has the versatility of three way loading; 450g cartridge, bulk grease or filler pump.

Also available is a "skin" version (670AN6-SKIN) gun only, so you can reuse your 670AN6 charger & batteries & save money and a 400g version (599F) to suit most USA and European sized grease cartridges.

## SPECIFICATIONS, FEATURES AND BENEFITS

- 4 point stand design allows the gun to be placed down while greasing
- Powerful 4.0Ah battery plus 2.5Ah spare battery supplied standard
- Delivery rates of up to 170g/min
- Grease pressures of up to 10,000psi (690bar)
- 120cm long grease gun flex for extra reach
- Up to 35 cartridges per battery charge due to the latest motor technology
- Dual flow rates: 113g/min and up to 170g/min
- LCD for real time battery capacity, grease level and grease metering
- Loss of priming and stall warning indication
- Fast recharger time of 2 hours, LED light with on/off control
- Suitable for use with grease up to NLGI2
- Three way loading: 450g cartridge, bulk grease or filler pump
- Impact resistant LCD lens surrounded by impact absorbing bezel
- Convenient grease gun flex holding clip
- Patented air flow management optimises motor and transmission life
- Shape, weight and balance designed for less physical strain
- Extreme duty industrial carry case
- Fast effortless greasing guaranteed
