

JR1 Spill Container Modular Ramp

June 2020

The JR1 Spill Container Modular Ramp is a universal access ramp designed to attach seamlessly to Alemlube's full range of modular workfloors and spill containment units (except IBC spill containers).

Quick, easy and safe to handle and position by one person, the JR1 Modular Ramp features a slip resistant texture and accommodates most trolley widths.

An ergonomic slope of 11° ensures user friendliness and an integrated locking system provides additional workplace safety.

Strong and robust the JR1 Spill Container Modular Ramp is ideal for industrial and general applications in all busy, productive market sectors.

SPECIFICATIONS, FEATURES AND BENEFITS

- Maximum load rating of 250kg
- Innovative and efficient design
- Ergonomic slope angle of 11°
- 100% recyclable polyethylene construction
- Integrated locking system for added safety
- Slip resistant ramp surface texture
- Suitable for every day industrial use
- Lightweight at just 9kg
- Easy and safe to handle by one person
- Fully recyclable, chemical resistant, UV stabilised PE
- Dimensions: 150mm (H) x 750mm (W) x 1000mm (L)
