# AA454PA

## Alemlube Automotive 4 Post 4.5t Alignment Hoist

The AA454PA 4 Post 4.5t hoist is designed for precise Wheel Alignment procedures and general under vehicle service operations. The AA454PA 4 Post 4.5t has an overall 5,190mm platform with a width between column of 2,742mm, ideally designed for vans and light commercial vehicles up to 4.5T; having also a maximum lift of 1,896 makes it also ideal for parking vehicles underneath the hoist. Pneumatic safety locks ensure operator protection and an aluminium motor provides improved cooling capacity during high work demands and low voltage controls provide additional operator safety.

Quality components throughout, compliant with Australian standards and manufactured to European CE standards.

### PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

Conventional 4 post hoist designed for precise wheel alignment procedures and general under vehicle service operations

Integrated rear wheel slip-plates

Heavy duty lifting capacity of 4.5t

Maximum lifting height of 1,896mm

Minimum lowered height of 246mm

Overall length 6,288mm

Overall width 3,342mm

Width between columns 2,742mm

Air operated safety lock system

Economical 3 phase power

Aluminium motor for improved cooling capacity during high work demands

Low voltage controls offer greater operator safety

Quality components throughout including Italian made hydraulic pumps

Optional rolling hydraulic jacking beams available

Compliant with Australian Standards

Manufactured to stringent European CE Standards
