## Alemlube Automotive Premium Automatic Tyre Changer

March 2021

**The Alemlube Automotive Premium AAPTC28 Automatic Tyre Changer is a technologically advanced, robustly constructed machine and features a pedal operated inflating device, manometer and CE certified inflation pressure limiter.**

Innovative design rim locking turntable with mobile clamps gives the AAPTC28 a clamping range from 10" to 28" (inside) for aluminium rims and from 12" to 31" (outside) for steel rims.

Two locking cylinders of 80mm in diameter control the four self-centering jaws which guarantee an optimal grip on all types of rims and the mounting tool can be adjusted vertically and laterally displaced from the rim.

### SPECIFICATIONS, FEATURES AND BENEFITS

- Pedal operated inflating device
- Clamping capacity of 10" - 31"
- Maximum wheel diameter 46" (1160mm)
- Maximum wheel width 16" (406mm)
- Bead breaker force of 2,500 kgf
- Turntable speed of 7 - 14 rpm
- Operating pressure of 116 - 174psi (8-10bar)
- Bead breaker force: 2500kg
- Double speed system with pedal control
- Centering device keep the tyre and turntable in one concentric circle
- Weight of 226kg
