

HR90096

Spring Rewind Grease Hose Reel - 20m x 10mm ID

February 2021

The EL Series HR90096 spring rewind grease hose reel is a high pressure reel supplied with 20m x 10mm ID S.A.E.100R2AT wire braid hose suitable for grease applications in commercial vehicle workshops, food processing, bottling plants, manufacturing facilities, pulp & paper manufacturing, minesite workshops, service vehicles and oil & gas facilities.

The hose reel drum is sturdy and practical with stiffening ribs for product longevity & flanged edges for operator safety.

The positive latching mechanism automatically locks the hose assembly at the desired length & the adjustable arms allow for floor, wall or ceiling mounting according to needs.

The EL Series HR90096 spring rewind grease hose reel from Alemlube will provide you with a reliable & cost effective means of storing and retrieving hose assemblies in your workshop.

The modern patented EL Series HR90096 spring rewind grease hose reel is a highly cost effective, and at the same time robust & durable, hose storage & retrieval solution.

SPECIFICATIONS, FEATURES AND BENEFITS

- Reinforced steel mounting frame provides maximum strength & stability
- Working pressure of 4,780psi (330bar)
- Includes 20m x 10mm ID S.A.E.100R2AT hose & hose stop
- 1.5mm thick robust drum assembly with stiffening ribs & flange edges
- Can be mounted on the floor, wall or ceiling
- Improves operator safety
- Black non corrosive plastic cover ensures operator safety
- New innovative latching solution enables the hose to be stopped in multiple positions as required
- Effortless & smooth hose extraction & retrieval
- Hose return constant speed rewind control device enhances operator safety
- Moulded rubber grip supplied standard
