

381020 12V ATEX Petrol Transfer Pump with Remote On/Off Switch

June 2022

Compact and sturdy, the 381020 12V ATEX Petrol Transfer Pump with Remote On/Off Switch available from Alemlube is an ATEX vane pump expressly engineered to work safely in potentially explosive atmospheres and conditions.

The 381020 performs effortlessly at flow rates of up to 32L/min at a working pressure of 12psi (18psi maximum operating pressure).

With a continuous duty rating, the 381020 12V DC pump is easy to accommodate thanks to its compact size and represents the ideal solution for small mobile tanks. A remote on/off switch and 5m long cable further add to the convenience and versatility of this compact petrol transfer pump.

The 381020 is equipped with a built-in bypass valve and a thermal protected motor and can be used to dispense several fluids including Petrol, E15, Diesel and Bio Diesel.

SPECIFICATIONS, FEATURES AND BENEFITS

- Flow rates of up to 32L/min
- 12V DC voltage power
- Continuous duty
- Remote On/Off Switch
- Compact & sturdy design
- Built-in bypass valve
- Thermal protection
- Self-priming
- 5m power cable with clamps
- Body: Cast Iron Rotor: Sintered Steel Vanes: PPS Seal: FKM Shaft: Steel
- Watts: 84 Amps: 10 RPM: 1400 Inlet/Outlet: 3/4" BSPF
- Weight: 5.4kg
