## SAMOA NEX.U.® OIL &amp; FLUID MONITORING

383000

## U.Dat System Access Keypad

September 2020

The Samoa NEX.U.® Fluid Management System provides you with the control and the information you require to make your operation more profitable. You will be able to account for every drop of lubricant and other service fluids used.

Moreover, NEX.U.® gives you the opportunity to utilise an efficient inventory control system with automatic alerts and fluid recording when needed, eliminating operations downtime.

NEX.U.® is suitable for almost any lubricant usage or size of operation and quickly pays for itself. Once paid for, savings go right to your bottom line in the form of profit, profit previously lost.

NEX.U.® is a hybrid system with all the advantages of wireless flexibility and hard-wired reliability.

**Hard-Wired Reliability**

- A constant and reliable power source is always present to power the solenoid valves that control fluid delivery
- No uncharged batteries to let you down
- Hard-wire data transmission to avoid interferences and other obstacles which might interfere with wireless data transmission

**SPECIFICATIONS, FEATURES AND BENEFITS**

- U.Dat allows system access to technicians either through a PIN code or using a RFID card (optional)
- U.Dat includes a 7 full colour graphics display and a complete QWERTY keypad
- U.Dat supports CAN bus cable communications that transmits data and the power to open the solenoid valves in the system. Cabling is easy using “plug-and-play” type connectors
- U.Dat includes the transformer required to simultaneously open up to 8 solenoid valves
- U.Dat requires 110 – 240V power supply
- **Markets served:**  
Dealerships, fleet owners, contractor & minesite workshops and service vehicle applications
- **Compatible fluids:**  
Synthetic & mineral based oils, DEF, diesel and antifreeze
