

## V25-012AD &amp; V25-024AD

## GPI 12V &amp; 24V High Flow Refuelling Kits with Auto Shut Off Nozzle

July 2021

The GPI USA made 12V & 24V High Flow 94 L/min Refuelling Kits with auto shut off nozzle are the ideal kits for rapidly dispensing diesel fuel in the agriculture, construction and industrial sectors.

Modular design allows you to easily attach a filter, meter or both and can even be used with a hose reel.

Built to last, the V25-012AD and V25-024AD refuelling kits are manufactured with superior components for long-lasting, trouble-free performance to prevent rust and handle extreme weather conditions.

Model	V25-012AD	V25-024AD
Housing Material	Cast Iron	
Pump Rate	94L/min	
Duty Cycle	Intermittent, 30min ON/OFF	
Suction Lift	Up to 4.5m	
Operating Temperature	-29°C to 52°C	
Maximum Surface Temperature	160°C	
Operating Pressure	20psi (1.37bar)	
Input	12V	24V
Motor	1620 RPM, 41hp	

## SPECIFICATIONS, FEATURES AND BENEFITS

- Flow rates of up to 94L/min
- Complete with 5.5m x 1" hose, 1m telescopic downtube & 5.5m 10/2 AWG\* power cable
- Equipped with 'Safe Stop' 30 minute auto power down with easy reset
- Built in fuel filter strainer
- Cast iron pump head & carbon vanes
- Lockable nozzle holder assists with fuel security
- 20psi pressure – can be used with a hose reel
- Quick-fit modular – easily attach a filter, M30 mechanical meter, or both
- Eliminate dangerous leaks with flanged connections, O-rings, & meter mag drive
- Internal check valve with "Perfect Prime" – keeps pump head primed & ready
- New drip catch helps keep tanks & trucks clean

\* IECEx compliant Petrol/Avgas models also available upon request.

V25-012MD & V25-24MD also available.
