AUTOMATIC GREASING SYSTEM REPAIR KIT

ACON0820-MAK

Construction Machine Major Grab Kit

September 2020

The Alemlube ACON0820-MAK Construction Machine Major Grab Kit is a convenient on demand kit containing a variety of essential components to repair construction machine automatic greasing systems on site.

Ideal for the construction industry, contractors, plant hire businesses, quarry operators and infrastructure building equipment maintenance, the grab kit comprises replacements of varying specifications for hose repair work and to replace broken fittings.

The ACON0820-MAK Construction Machine Major Grab Kit features a sturdy 'tool box' with tray insert, heavy duty metal closing clips and a foldaway carry handle keeping all parts securely contained and instantly ready for use when the maintenance need arises.

SPECIFICATIONS, FEATURES AND BENEFITS

- Durable 'tool box' style kit with secure carry handle
- Includes 10m x 8.3mm high pressure grease tube, 5m x 6mm grease hose, compression fittings, hose studs and hose sleeves
- Keep on hand to repair damaged grease lines
- Spares to replace broken/damaged fittings
- Assorted thread sizes to suit metric & imperial: M6x1, M8x1, M10x1 and 1/8" BSP
- Also suitable for sprayers, headers, seeders and other agricultural machines

Also available:

- **ACON0820-MIK** Construction Machine Minor Grab Kit without tube or hose
