51010 1" Slump Gun Nozzle

The new Alemlube 51010 1" slump gun nozzle is a heavy duty manual nozzle designed and manufactured with an aluminium body, steel handle & trigger and a reduced steel spout that produces a jet effect.

Widely carried on board concrete trucks to add water, for washdown operations and other applications where higher water pressure is required up to 100psi.

The 51010 slump gun nozzle is robust with an easy action, incorporates a 1" BSP inlet and is fully serviceable.

PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

Heavy duty construction

Aluminium nozzle body

Steel handle & trigger

Maximum pressure rating of 100psi

Reduced steel spout creates a jet effect

1" BSP inlet
