## AA476 Alemlube Automotive Pneumatic Wheel Balancer Wheel Lifter

June 2022

**The Alemlube Automotive AA476 Wheel balancer wheel lift is a technologically advanced, robustly constructed machine and features a toggle operated lifting device with ball bearing slider to easily slide wheel onto the wheel balancer shaft.**

The Alemlube Automotive AA476 pneumatic wheel lift, designed purely for use with wheel balancers, minimises the strain on technicians when mounting heavy wheels onto a wheel balancer. The AA476 virtually eliminates the need to lift & locate wheels onto the balancing shaft.

The AA476 is suitable for a automotive workshops, tyre services & dealerships

### SPECIFICATIONS, FEATURES AND BENEFITS

- Designed for use with most wheel balancers in use today.
- Increases efficiency & safety in the workshop.
- Solid steel construction.
- 65kg Maximum wheel weight / lift capacity.
- Working pressure 8-10 bar
- Pneumatic lift via toggle switch.
- Maximum lift height of 486 mm.
- Sliding tray to easily move wheel up to the balancing machine.
- Ideal for light vehicles & heavy 4WD wheels.
- Powder coated finish.
