HR90085

Oil, Diesel, Air & Water Spring Rewind Hose Reel

August 2023

The EL Series HR90085 Oil, Diesel, Air and Water Spring Rewind Hose Reel is a low pressure reel supplied with 20m x 12mm ID Hybrid Polymer hose suitable for air or water transfer in commercial vehicle workshops, food processing, bottling plants, manufacturing facilities, pulp & paper manufacturing, minesite workshops, service vehicles and oil & gas industries.

The hose reel drum is sturdy and practical with stiffening ribs for product longevity & flanged edges for operator safety.

The positive latching mechanism automatically locks the hose assembly at the desired length & the adjustable arms allow for floor, wall or ceiling mounting according to needs.

The EL Series HR90085 Oil, Diesel, Air and Water Spring Rewind Hose Reel from Alemlube will provide you with a reliable & cost effective means of storing and retrieving hose assemblies in your workshop.

The modern patented The EL Series HR90085 Oil, Diesel, Air and Water Spring Rewind Hose Reel from Alemlube is a highly cost effective, and at the same time robust & durable, hose storage & retrieval solution.

SPECIFICATIONS, FEATURES AND BENEFITS

- Reinforced steel mounting frame provides maximum strength & stability
- Working pressure of 300psi (20bar)
- Includes 20m x 12mm ID Hybrid Polymer hose & hose stop
- 1.5mm thick robust drum assembly with stiffening ribs & flange edges
- Can be mounted on the floor, wall or ceiling
- Improves operator safety
- Black non corrosive plastic cover ensures operator safety
- New innovative latching solution enables the hose to be stopped in multiple positions as required
- Effortless & smooth hose extraction & retrieval
- Hose return constant speed rewind control device enhances operator safety
- Moulded rubber grip supplied standard
