

## PRODUCT INFORMATION

June 2013

# 1125-6-35

## 1" Hand Crank Bare Hose Reel

The 1125-6-35 hand crank bare hose reel available from Coxreel USA and Alemlube is well-engineered and manufactured and meets the criteria demanded by industry professionals and features a sturdy one-piece all welded "A" frame base, low profile outlet riser and open drum slot design providing a non-crimping, flat smooth hose wrap.

Rotation is extremely smooth due to permanently lubricated self-aligning pillow block bearings and an adjustable tension brake prevents "free-wheeling" during operation.

A solid steel direct hand crank with smooth round handle assists in ease of operation with strength and safety facilitated by rolled edges and ribbed discs.
